

# 刹车传感器 Brake Sensor

液压刹车专用 BK-2R

## ● 描述 Description

How to check Hydraulic brake level active or disactive is a big issues on ebike ,Now ,this trouble was complete solved after BK-2R launched.

This sensor combined with 2 parts one is sensor body and others is a small magnet , size is very small so only need to stick both of them on the brake level, then , it can check the brake active and disactive and a switch signal will be output.

液压刹车检测一直是电动自行车的难点，本公司推出的本款产品，完美的解决了该问题，体积小巧，性能稳定，直接使用SM胶水粘贴在刹车把上，当刹车动作时，输出开关量。

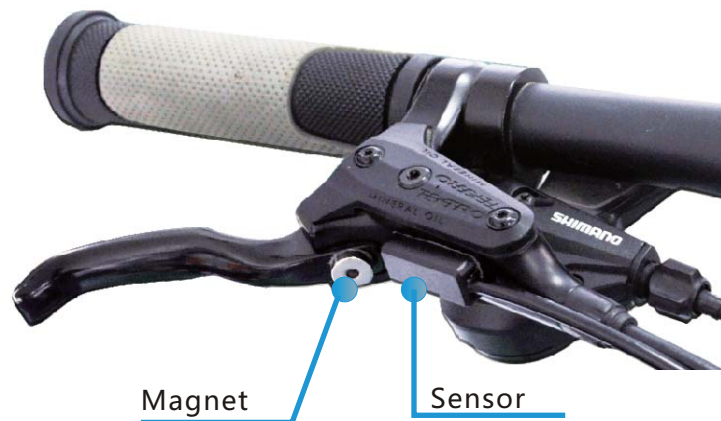

## ● 技术参数 Specification

型号 Model	: BK-2R
信号 Signal	: Active : switch off : InActive: switch on
材料 Housing material	: Intensive ABS
尺寸 Sensor Size	: 26x11.5x6mm
磁钢 Magnet Size	: $\Phi 10 \times 3$ mm
重量 Net Weight	: 4g

## ● 接口 Interface

接头 Connector : SM2 or Other

## ● 安装 Install Guide

## ● 包装 Pack List

传感器 Sensor x1  
磁钢 Magnet x1  
3M背胶 3M Gummed tape x2  
默认线长 100cm

## ● 订货 Order

Items below must be declared clearly before order..以下信息必须在订单中注明  
--信号数量 Model & Quantity  
--接头类型 Connector type  
--线长 Cable length  
--其它 Other special requirements
